# Lake County

Located in northwestern Montana, Lake County is Montana's ninth most populous with 26,507 residents, according to the 2000 Census.

Polson, the county seat, is the state's 18th largest city with a population of 4,041. According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1923 and was one of the last counties to be formed in Montana. The authors add Flathead Lake was the inspiration for Lake County's name and Polson was named for Mission Valley stockman David Polson.

Lake County is home to the Confederated Salish and Kootenai Tribes of the Flathead Nation. The Flathead Reservation was established by the Hellgate Treaty of 1855. In 1845, Father Pierre Jean DeSmet arrived and helped establish the first permanent mission at St. Ignatius in 1854. Lake County is also home to the Mission Valley and Mission Mountain Range, Flathead Lake, the National Bison Range, Bob Marshall Wilderness and close to Glacier National Park.

According to the U.S. Bureau of the Census, median income for Lake County households in 1997 was \$27,169. The county is 1,653.8 square miles in area; 1,493.8 square miles in land area and 159.9 in inland water area.

County residents experience the four distinct seasons. According to the *Western Regional Climate Center*, the average daily low in Polson in January between 1961 and 1990 was 19.6 degrees above zero. The average daily high in July was 82.0 degrees above. The annual precipitation during the same period was 16.67 inches. The growing season was from May 9 to Sept. 27 (last and first frost).

PLEASE NOTE: Because of time and budget constraints, we are only able to update our county fliers periodically. Individual tables are updated on a more frequent basis. You can call us if you'd like the most current information for a particular county. The Annual Averages for County Employment By Industry are updated annually, usually in June. The Top Employers are updated annually. Per Capita Income statewide is usually released late spring. Population data for Montana is released in late December and county data in March. The Annual Average Labor Force information is benchmarked annually and numbers available before March. The other tables contain Census information and will be updated every 10 years. You can also look for more current information on our website listed on the front of this publication.
